

# Iceless Green Onion

Green onions are one of our signature items. Our onions have strong color, distinctive flavor and fresh aroma. While this variety that is grown year round, it need not be packed in ice. Because ice is not used, more green onions can fit on each pallet due to a reduced carton size and shipping costs are lower. Customers also benefit from extended 21 day shelf life, recyclable cartons, and improved safety. Produced in a state of the art facility, our iceless green onions strictly adhere to the highest level of food safety standards, verified by Primus and customer audits.

## Availability

Year-round Availability  
(Please ask available pack sizes, pricing and more information)

## Handling

Store in the cooler at 33 - 38 ° F / 1 - 3 °C. Onions are ethylene neutral, but are producers of, and sensitive to, odors. Do not store or transport near odor sensitive or producing items.
